Engagement File Update

v22.0.01 to v22.0.02

## FURTHER INFORMATION ON THE V22.0.01 TO V22.0.02 UPDATE

### i) Application of updated mapping

There are always likely to be mapping changes from one year to the next when an engagement file is updated.

To apply the new mapping to your engagement file please follow the details in our article that can be found on our Knowledge Base [here](#).

### ii) Some of my documents appear blank when I open them for the first time

Sometimes when opening new documents for the first time they may appear blank. This is a known issue. Simply close the document and re-open and it will render correctly.
