caseware.

An Introduction to NotebuilderAdvanced
**Introductory Level

Q&A

23rd November 2023

Q&A

1. **Can you remove the indent on the title?**

   You can remove the note number but Caseware does not provide the option to align the title to the margin.

2. **Is there an option for creating a report section rather than a note?**

   Guidance for creating various custom reports is available via our webinar recording and accompanying useful links document.

3. **Can you add more than one table and text section per new custom note in notebuilder?**

   Yes, you are able to add multiple to the same note, including text notes above and below the note.

4. **For LLP, can we create customised Statement of Changes in Equity reports with additional columns?**

   Yes, you can add additional columns to a note in order to create a larger note. When replacing a default Caseware note, there may be additional work required to add manual iXBRL tagging to the replacing note.
